1937 PRICE LIST

Lone Tree Dahlia Gardens.

GREETINGS-

TO ALL FLOWER LOVERS:

Again I send with much pleasure, my 1937 price list, and take this means of thanking you, one and all, for the orders you so kindly sent me last season.

As always, my aim is to please you. Your orders will be filled with the greatest care, generosity and attention.

To new customers, I wish to say, Welcome.

To my old customers, I wish to express again, my sincere appreciation of your kind favors, and hope that our pleasant relationship may continue for many years to come.

May 1937 bring better luck and better flowers than the past year.

Yours for better flowers

Mrs. Curtis Ray

Member American, Indiana, Indianapolis, and
Mid West Dahlia Societies.

VISITORS ALWAYS WELCOME

You are herewith extended an invitation to visit my gardens in bloom during 1937. Many new varieties are planned to be added the coming season so plan to select next season's bulbs from the flowers in bloom. Dahlia's best blooming time is in late September and October until frost. The farm is located $3\frac{1}{2}$ miles south of Greensburg, Go 1 mile southeast of Greensburg on State Road 29, then turn south $2\frac{1}{2}$ miles on Black top, Millhousen road.

GENERAL INFORMATION

Orders are booked and filled in the order received, shipments starting April 15 and each day thereafter until close of season.

Early Orders are advised as then you are assured the varieties you wish. Later, some varieties may be sold out, but rather than disappoint you, I will substitute another, as nearly like or equally as good, unless you state otherwise.

Other Varieties. Many varieties are grown in limited quantities, that are not listed, so if you are wanting something not listed, write me, I may have it.

Large Quantities. If interested in any variety of roots in larger quantity, write your wants, and prices will be quoted you.

Clumps at Digging Time. I issue no fall catalog but if you are interested in buying any particular varieties, write me for prices, naming the varieties you wish. This must be done before November 1st as later all clumps go into storage.

Guarantee. All stock is State inspected during the growing season and again in storage and all shipments carry the inspection certificate. All stock is guaranteed to be true to name and in growing condition upon arrival. If for any reason, it is found otherwise, please return at once and I will cheerfully replace or refund

purchase price. Beyond that my responsibility ceases.

Terms. All orders are cash. Orders of \$1.00 and over are sent postpaid. Orders under \$1.00 please add 10 cents postage.

Cut Flowers. Cut flower gladiolus, dahlias and many other flowers are sold in season, both wholesale and retail. Baskets are filled to suit ones taste. Flowers are bunched and sorted as to size and color for the wholesale trade. If interested in cut flowers for any occasion, give me your order. You will be more than pleased.

Planting Instructions. When dahlia bulbs arrive, if not ready to plant, please put into a pan of moist earth until growth can be seen. By so doing, they are not allowed to dry up before planting. Plant in an open location, about 6 inches deep, covering about 3 to 4 inches and filling in as the plant grows. Lay the tuber flat on the ground, not on end and plant 2 to 3 feet apart in rows. Cultivate often. These instructions will apply to dahlia plants as well, except they should be shaded, watered, and taken care of just as you would tomato, cabbage or any other plants.

FREE BULBS FOR EARLY ORDERS YOUR SELECTION

To encourage early orders, I am offering free bulbs to the amount of 20% of your order up to Feb. 15, on orders of \$3.00 and over.
